ABOUT ME

Early Life

I was born in Panangad near Kochi, India, and graduated in Philosophy from Maharaja's College, Ernakulam. My creative journey began in 1971, and without any formal academic training in art, I've been able to preserve my originality, free from conventional and established norms.

Recognition

I'm a member of various visual arts organizations in India and abroad, including South Korea. Over the years, my work has been showcased in national and international exhibitions across South Korea, Taiwan, Portugal, and England, and is part of museum collections in South Korea and Taiwan. I've also had the honor of being an invited artist at the Incheon Metropolitan Art Gallery, South Korea.

In 2023, I received the Tagore National Award at the 5th Annual Exhibition of Paintings by Rabindranath Tagore University for Art and Literature, Bhopal. I regularly participate in art camps and workshops in India and abroad, staying closely connected with artists and art lovers worldwide.

Art Philosophy

Art is my passion, an irresistible force that keeps me creating without pause. My recent solo exhibition, Mindframes Solitude, held at Durbar Hall Art Gallery, Kochi (7–15 July 2025), was met with exceptional footfall and heartfelt praise for its unique style and language - a deeply satisfying milestone in my ongoing journey.
