

Juniper Dev

THE BRIEF

The Juniper Dev "Very Serious Game Jam" challenged developers to build a game from scratch in exactly seven days.

THE THEME

SPIN TO WIN

THE CONCEPT

Meet Need for Squeak. A low-poly 3D racing game where the car's steering wheel is replaced by a literal hamster running in a hamster wheel.

3D ASSETS

hamster models

running

idle

toon shading for UI element

player car

cadillac inspired rear

NPC car

roof

Interior

hamster wheel
